

Rovers® Cervex-Brush®

Polyethylene handle

- Polyethylene bristles, various lengths

- Polyethylene handle

*Image not actual size

Description

Cell collection with the Cervex-Brush® provides a clear and accurate sample which leads to early detection of cervical cancer. The reliability of smears obtained by the Cervex-Brush® reduces the need for repeat testing. The brush is made up of various lengths of semi-circular plastic bristles. The shape is such that the top edges of the brush follow the contours of the cervix.

Dimensions

8" Overall Length (203.2mm)

Qualities

- Sturdy polyethylene handle
- Soft flexible brush tip
- All necessary cells can be collected in one movement

Standards

- ISO 9001:2008
