

Rovers® Cervex-Brush® Combi

Polyethylene handle

Description

The Cervex-Brush® Combi will collect both ectocervical and endocervical cells from patients. The convenient Cervex-Brush® Combi provides health professionals with the option of a simultaneous Pap smear collection with a single device insertion.

Dimensions

8" Overall Length (203.2mm)

Qualities

- Sturdy polyethylene handle
- Soft flexible bristles do not collect wet, humid cells allowing for easy transfer of cytological material to a glass slide or preservative fluid
- Detachable tip allows for use with both liquid based and conventional cervical cytology tests
- Requires only 2 full clockwise rotations
- High cellular yield

Standards

- ISO 9001:2008
- ISO 13485:2003
- FDA GMP's
- 510K approved
- Certificate of compliance available with each shipment upon request

Applications

- For collection of both ectocervical and endocervical cells for Pap smears
