- Polystyrene shaft

Actual Size

Description

Our Purflock® brand of nylon flocked swabs are ideal for optimum sample collection. Puritan's exclusive proprietary multi-length fibers are fully integrated into the shaft enabling the tip to be like a velvet-like brush. The flock collects and holds more specimen and then releases it faster and more completely than traditional swabs.

Tested by an independent lab to the most stringent standards (less than 25 pg of human DNA), certified to be DNA-free and RNase-free.
