

Disposable Apparel Sizing Chart

What size should I wear?

Generally we recommend ordering a size larger than the charts indicate, remember, you are putting these over your street clothes.

Based on ANSI 101-2002 Sizing Standards

Please Note: There are certain applications, chemicals, and environments which Non-Woven Disposable Apparel is not suitable for. It is always the responsibility of the user to determine risk and assess the appropriate use of the apparel for a particular application, and perform "on-site" testing before putting the product to actual use.

CAUTION: These products are not intended for fire protection. Avoid open flames, sparks, and intense heat.
