Check Scanner Cleaning Card

Use on Panini Vision X™, My Vision X® and I:Deal™ Check Scanners to ensure consistent check processing on every scan.

This product has been developed to remove endorsement ink residue, paper flash, and other debris, left behind during normal operation, from lenses and pathways within the Panini Vision X™, My Vision X® and I:Deal™ Check Scanners.

This is the only product approved for use in the Panini Vision X™, My Vision X® and I:Deal™ Check Scanners. Use of non-approved product may void warranty.

For more information regarding the cleaning of your scanner, please refer to your Operator Manual.

Check Scanner Waffletechnology Cleaning Card

Weekly Cleaning

It is recommended to run the cleaning card through the check scanner once a week. This will remove ink, dust and dirt buildup from the rollers and image cameras. This will extend the interval between needed manual cleaning for these components.

Directions:

1. Remove the ink cartridge or franking roller from the machine if present.
2. Start an application, which will feed documents, Capture Application, MyDemo, etc.
3. Run the cleaning card through the Panini Vision X™, My Vision X® and I:Deal™ 3-7 times, each time rotating the cleaning card top to bottom as well as flipped over so the cleaning card is inserted each time with a different orientation.
4. Cancel the application, discard the used cleaning card, and replace the ink cartridge or franking roller if needed.
Note the cleaning card is not intended to remove debris from track, clean the sensors, clean the ink cartridge, or replace the cleaning procedures outlined in the operator manual.

Waffletechnology® is a registered trademark of the Manufacturer. Patent Pending.
